

# BLADE REPAIR SERVICES

# BLADE REPAIR SERVICES

## ESTABLISHED IN 2007, RBL IS A TEXTRON COMPANY AND AUTHORISED BELL SERVICE CENTRE.

We are a UK Civil Aviation Authority (CAA) and European Aviation Safety Agency (EASA) approved Part 145 Maintenance Facility located in Warminster, England, UK. We specialize in the inspection maintenance and repair of your composite and metal rotor blades.

## BLADE REPAIR SERVICES

RBL's highly trained & skilled personnel and OEM approved tooling, will ensure your repair is carried out effectively, efficiently and to the highest standard. This attention to detail along with our unparalleled access to OEM Engineering resource enables us to provide a best in industry warranty.

## HOW TO GET STARTED

### STEP 1 Contact repair facility.

Connect via your Bell Representative or direct with RBL to discuss your needs.

### STEP 2 Ship your blades.

Ship blade(s) to our facility, or inquire about field repairs.

### STEP 3 Receive quote.

We will send you a quote for repairs after a thorough blade inspection.

### STEP 4 Repair your blades.

Once you approve the quote, we'll start repairs to get you back in the air fast.

### STEP 5 Return your blades.

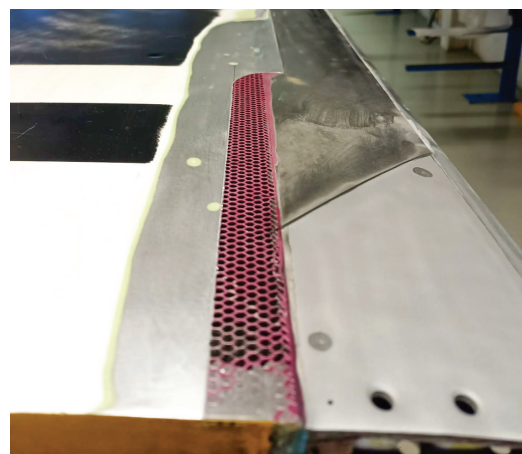

Blades will be returned to you promptly.
