

Distribution Group: All Bell Training Customers

Subject: Coronavirus (COVID-19) Visitor/Student Requirements

Dear Valued Customer,

The health and safety of our customers and employees remains Bell's top priority while we continue operations as an essential business. Following the recommendation of health officials and other experts, Bell has implemented precautionary measures to promote and maintain a healthy environment including enhanced cleaning protocols, PPE distribution, revising conference room capacities, and certain visitor screening requirements.

To further promote and maintain a healthy environment at our training facility, Bell now requires a negative test result for all visitors/students taken no earlier than 72 hours prior to your arrival to our facility. If you were required to present a similar result to the airline to enter the United States or the state of Texas, you may use the same document. A physical copy of your test result is preferred in English to help facilitate check-in.

Tests may be **molecular** (RT-PCR) or rapid **antigen** from a reputable source. Antibody test results will not be accepted.

We ask that our visitors follow CDC guidelines when onsite at any Bell facility and join us in best practices including:

- Proper hand and respiratory hygiene
- Physical distancing when possible
- Wearing a cloth mask when you're on site
- Staying home if you feel ill

It is our expectation that our onsite customers comply with our safety procedures and make appropriate arrangements.

We appreciate your business during this unique time and are grateful for your diligence in helping Bell continue to support our customers around the world as safely as possible.

We look forward to training with you. Thank you for choosing the Bell Training Academy and for being a loyal Bell customer.

Kind regards,

Sam Nelson
General Manager, Global Customer Training
Bell Training Academy
